

CUMULATIVE INDEX 1997

Volume 41

January	ADULT ORTHODONTICS, pages 1-154
April	OROFACIAL PAIN AND RELATED DISORDERS, pages 155-390
July	MICROSCOPES IN ENDODONTICS, pages 391-632
October	CLINICAL DECISION-MAKING IN GERIATRIC DENTISTRY, pages 633-982

Note: Page numbers of article titles are in **boldface** type

- Accessories, for surgical operating microscope, 401-402
- Acetylcholine precursors, for cognitive performance improvement, in Alzheimer's disease, 923
- Adenotonsillar hyperplasia, with airway obstruction, manifestations of, 201
- Adult(s), deep overbite in, correction of, 67-87
 - oral bone loss in, 9-11
 - orthodontic treatment of, esthetic considerations in, 29-48
 - treatment planning considerations for, 17-27
- Advancement loop, in lingual orthodontics, 116
- Aging, and pulp response to injury, 797-798
 - oral health needs in, 633-649
- Airway compromise, monitoring for, with frequently prescribed medications in elderly, 719
- Alcohol consumption, and oral cancer risk, 893-894
- Alignment, for dental esthetics in orthodontics, 41-42
- Alkaline phosphatase, role in mineralization, 2
- Allergic stomatitis, drug-induced, in elderly, 715
- Alveolar bone, 1-15
 - development of, 1-7
 - during mixed dentition period, 7-8
 - maintenance of, in reimplantation, 607
 - maturation and aging of, orthodontic implications of, 8-9
 - resorption of, effect on maxillomandibular occlusal relation, 825
 - in elderly, 11-12
 - with edentulousness, in elderly patient, 849, 851
 - squamous cell carcinoma of, orofacial pain with, 361, 363-364
- Alzheimer's disease, 915-943
 - approaches to oral health care in, 922-930
 - determination of cooperativeness, 925-929
 - ensuring adequate informed consent, 929-930
 - goal-setting, 922
 - medication review, 922-925
 - patient assessment, 922
 - recognition of abilities and limitations, 929
 - behavioral management techniques in, 930-935
 - nonpharmacologic approaches, 933
 - pharmacologic approaches, 933-935
 - clinical diagnosis of, 916-917
 - cost to society, 916
 - dental management in, caregiver participation in, 927-928
 - index to, 925
 - oral hygiene for, 928
 - sedation for, 928
 - treatment suggestions, 927
 - drugs used for symptomatic treatment in, 924
 - drugs used to improve cognitive performance in, 923

- Alzheimer's disease (*Continued*)
 information sources on, 943
 medical treatment of, 918-919
 mouth screening in, guide for, 936-937
 neuropathology of, 917
 oral and dental concerns in, 919-939
 future dental trends, 921
 research findings, 920-921
 oral hygiene program for, development of, 938-939
 prevalence of, 915-916
 recommendations for caregivers, 935-939
 risk factors for, 917-918
 signs and symptoms of, disease stage and, 931
- Amalgam, as retrograde filling material, 556-557
 for root caries restoration, in older patient, 778
- Anchor suture, in endodontic surgery, 526
- Androgen excess syndrome, in women, temporomandibular disorders vs, 289-290
- Anesthesia, general, for behavioral management, in Alzheimer's disease, 935
- Anesthetics, local, in presurgical endodontic hemostasis, 500-501
- Anger, in Alzheimer's disease, behavioral management of, 933
- Angioedema, monitoring for, with frequently prescribed medications in elderly, 719
- Angiotensin-converting enzyme inhibitors, effects in elderly, 704, 708
 dental management considerations with, 717
- Anterior biteplate orthoses, for temporomandibular disorders, 318
- Anterior crossbite, orthodontic treatment planning for, 57, 60, 62-63
- Anterior open bite, orthodontic treatment planning for, 53-55
- Anterior teeth, flaring of, in deep overbite, 67
- Antianginals, effects in elderly, 705, 708
 dental management considerations with, 717
- Antianxiety agents, effects in elderly, 706, 710-711
 dental management considerations with, 718
 for bruxism, 238
- Antiarrhythmics, for orofacial pain, 273
- Anticalculus effect, of dentifrices, in older adults, 738-739
- Anticaries effect, of dentifrices, in older adults, 738
 of mouthrinses, in older adults, 740
- Anticholinesterases, for cognitive performance improvement, in Alzheimer's disease, 923
- Anticoagulants, effects in elderly, 705, 709
 dental management considerations with, 717
 risk assessment for, 676-677
- Anticonvulsants, for cognitive performance improvement, in Alzheimer's disease, 923
 for orofacial pain, 272-273
- Antidepressants, effects in elderly, 707, 711
 dental management considerations with, 718
 for neurogenic orofacial pain, 270-272
 tricyclic, for symptomatic treatment in Alzheimer's disease, 924
- Antihistamines, for orofacial pain, 273
- Anti-inflammatory drugs, effects in elderly, 706, 710
 premedication with, for reimplantation, 610
- Antimicrobial effect, of dentifrices, in older adults, 739
- Antiplaque effect, of mouthrinses, in older adults, 740
- Antithrombotics, effects in elderly, 709-710
- Antral floor, maxillary, protrusion of, 570
- Antral membrane, inflammation of, 569
- Antrum of Highmore, anatomy of, 563-565
- Anxiousness, in Alzheimer's disease, behavioral management of, 930-932
- Apical foramen, location of, 809
- Apical pathosis, following trauma, in geriatric patient, 805
- Apical surgery, bony defect with, reimplantation for, 607
 failed, reimplantation for, 606
- Apicectomy, extraoral, in reimplantation, 614
 ideal, 489
 wrong incision for, 572
- Appliance esthetics, in orthodontics, 30, 45-47
- Arachidonic acid, metabolic pathways of, in orofacial pain, 170
- Arch form/width, objectives of, for orthodontic treatment, 21
- Arthralgia, trigeminal nervous system in, 169-172
- Arthritis, in elderly, risk assessment for, 674-675
 rheumatoid, and sleep disorders, 205
- Aspergillosis, sinus, histologic image of, 579
- Attitude, assessment of, in temporomandibular disorders, 345
- Avitene, for surgical endodontic hemostasis, 508
- Avulsion, accidental, reimplantation for, 607

- B cell function, changes in, in elderly, 660
- B vitamins, deficiencies of, in elderly, 682
- Barrier membrane techniques, in
endodontic microsurgery, 585-602
physical barrier, 587
postsurgical endo-perio
communications, 600
types of, 586
- Behavioral management techniques, in
Alzheimer's disease, 930-935
- Behavioral treatment, for
temporomandibular disorders,
347-349
- Bending fatigue, and broken instruments,
461
- Benzodiazepines, for orofacial pain, 273
for symptomatic treatment in
Alzheimer's disease, 924
- Beta-adrenergic blockers, effects in elderly,
705, 708-709
dental management considerations
with, 717
- Bevel angle, in endodontic microsurgery,
487-488
- Binoculars, with surgical operating
microscope, 394
- Biofeedback, for temporomandibular
disorders, 349
- Biteplate, for bruxism, 237
- Bitter tastes, changes in, in elderly, 663
- Bleaching, in geriatric patient, 812
- Bleeding gums, interventions for, 688
- Block anesthesia, for reimplantation,
609-610
- Bonding, for lingual orthodontics, 114
for root caries restoration, in older pa-
tient, 781
- Bone, allograft of, in endodontic
microsurgery, 594
defects of, postapicectomy, calcium sul-
fate for, in guided tissue regenera-
tion, 595-596
eosinophilic granuloma of, orofacial
pain with, 361-362
oral, loss of, in adult, 9-11
resorption of, among elderly, 642
remodeling of, with orthodontic tooth
movement, 11-13
turnover rate of, assessment of, 8-9
in adults, 10
- Bone cell activity, network controlling, 6-7
- Bone wax, in surgical endodontic
hemostasis, 504-505
- Bracket(s), orthodontic. See *Orthodontic
bracket(s)*.
- Bradykinin, as pain enhancer, 261
- Broken instruments, endodontic, removal
of, 468-473
use of microscope for, 621
endodontic retreatment for, 436-441
microscopic management of, 461-476
causes of, 461-462
retrieval techniques for, 462-476
- Bruxism, 229-241
characteristics of, 231-233
definition of, 229
diagnosis of, 233-234
during sleep, related to orofacial pain,
198-201
epidemiology of, 230
etiology of, 230-231
management of, 234-238
- Buccal plate, intact, apex identification on,
482-483
- Burning mouth syndrome, and sleep
disorders, 205
in elderly, 887-888
- Butyrophonones, for symptomatic
treatment in Alzheimer's disease, 924
- Calcific metamorphosis, in endodontics, in
geriatric patient, 802, 805
- Calcifications, of pulp, in endodontics, 797
- Calcium, deficiency of, in elderly, 682
- Calcium channel blockers, effects in
elderly, 704, 708
dental management considerations
with, 717
periodontal disease, 757
- Calcium sulfate, for surgical endodontic
hemostasis, 507
in guided tissue regeneration, in endo-
dontic microsurgery, 594-595,
598-599
clinical application of, 595-600
operative protocol for, 596
- Camera equipment, for surgical operating
microscope, 399
- Cancer, in elderly, risk assessment for, 676
orofacial, 355-365
case reports of, 356-357, 359, 360
incidence and mortality of, 357
pain with, 357-359
- Candidiasis, oral, in elderly, 881-882
- Canine, maxillary, anatomy of, 566-567
- Canine fossa, anatomy of, 564
- Carcinoma. See also *Oral cancer*.
gingival, surgical defect with, 897
squamous cell, of floor of mouth, 898
of tongue, 898
oral, histopathology of, 896
with smokeless tobacco use, 893
- Cardiac conditions, and antibiotic
prophylaxis, in elderly, risk
assessment for, 672-673
- Cardiac glycosides, effects in elderly, 705,
709
dental management considerations
with, 717

- Cardiac origin, of toothache, 376-377
- Cardiovascular disease, in elderly, risk assessment for, 671-673
- Cardiovascular monitoring, with frequently prescribed medications in elderly, 719
- Cardiovascular system, changes in, in elderly, 654-655
- Caries, cervical, radiation-associated, 880 following radiation therapy for oral cancer, 907 in Alzheimer's disease patients, 920 in older adults, 641, 728 recurrent, in geriatric patient, treatment for, 807 risk management for, with frequently prescribed medications in elderly, 722 root, in older patient, 763-793. See also *Root caries*.
- Central nervous system agents, effects in elderly, 706-707, 710-711
- Cephalograms, for orthodontic treatment planning in adults, 59, 63
- Cephalometric analysis, of dentoalveolar height, 133 of facial proportions, 132 of lower face height, 132 of mandibular plane, 132 of posterior face height, 133 of short face patient, 130-133 of upper face height, 132 vertical, 131
- Ceramic-metal brackets, debonding of, 99-101
- Ceramic orthodontic brackets, esthetic, 46, 91
- Cervical notching, in older patient, 823
- Cervical region, posterior, as origin of orofacial pain and headache, 160, 327-328
- Cervical support pillow, for orofacial pain management, 332-334
- Chemical dependency, assessment of, in temporomandibular disorders, 346
- Chemotherapeutic agents, for oral health promotion, in older adults, 735-742 dentifrices, 737-739 fluoride, 735-738 mouthrinses, 740-741
- Chlorhexidine, for oral health promotion, in older adults, 740-741 for postsurgical care, in endodontic surgery, 527 premedication with, for reimplantation, 610
- Chronic fatigue syndrome, temporomandibular disorders vs, 286
- Chronic pain, persistent, reimplantation for, 607
- Class I malocclusion, lingual orthodontics for, 122-125
- Class II Division 1 malocclusion, surgical-orthodontic therapy of, 139-144
- Class II Division 2 malocclusion, with deep overbite, 77-82
- Class II malocclusion, with deep overbite, 81, 83-85
- Class III malocclusion, surgical-orthodontic therapy of, 138-139
- Codeine, for orofacial pain, 270
- Cognitive function, changes in, in elderly, 657
- Collagen, for surgical endodontic hemostasis, 508
- Combination syndrome, prosthodontic treatment planning for, 829, 831
- Communication, nonverbal, in Alzheimer's disease, behavioral management of, 932-933 quality of, in treatment planning for geriatric patient, 953-954
- Complex regional pain syndrome, orofacial, 184-185
- Compliance, assessment of, in temporomandibular disorders, 345
- Compomers, for root caries restoration, in older patient, 780
- Composite resin, for root caries restoration, in older patient, 779-780
- Condylar head positioning, in orthodontic treatment planning in adults, 64
- Congestive heart failure, in elderly, risk assessment for, 673
- Coronal caries, by age, 824
- Coronal seal, in geriatric patient, 813
- Cranial nerve testing, for orofacial pain, 162-163
- Craniofacial skeleton, development of, 1-3 role of *Msx* genes in, 3-6
- Crossbite(s), and dental esthetics, 38 anterior, orthodontic treatment planning for, 57, 60, 62-63
- Crown, resistance to dislodgment of, 832 root canal access through, 811 trauma to, clinical appearance of, 813
- Curve of Spee, lower, excessive, surgical correction of, 138
- Cuspid, retraction of, in lingual orthodontics, 117
- Cyclosporine, and gingival enlargement, in elderly, 757
- Deciduous teeth, as space maintainers, reimplantation for, 607
- Deep overbite, in adults, correction of, 67-87. See also *Overbite*.
- Dementia, in elderly, risk assessment for, 677

- Dental assistant, observation devices for, with surgical operating microscope, 409-410
 position of, with surgical operating microscope, 406-409
 role of, with operating microscope, in conventional endodontics, 417-418
- Dental care, among adults, frequency of, 637
 need for, 638
 in Alzheimer's disease, **915-943**. See also *Alzheimer's disease*.
 in elderly, funding for, distribution of, 637
 impact of frequently prescribed medications on, 716-723
 managed care in, 305-306
- Dental chair position, with surgical operating microscope, 404-405
- Dental compensations, elimination of, in orthodontic treatment, 20
- Dental considerations, in deep overbite in adults, 70
- Dental esthetics, in orthodontics, 36-42
 alignment, 41-42
 anteroposterior dimension, 40-41
 bracket positioning in, 40
 transverse dimension, 38
 vertical dimension, 38-40
- Dental floss, for plaque removal, in older adults, 734
 use of, patient education in, 832
- Dental function, examination of, for orofacial pain, 160-161
- Dental pain, causes of, 248-249
 primary, Lyme disease vs, 250-251
 pulpal inflammation and, 249
- Dental practice, enhancement of, microscope in endodontics and, 623-624
- Dental procedures, antibiotic prophylaxis for, in elderly, 673
 bacteremia with, incidence of, 675
- Dental prostheses, pain associated with, 255
- Dental protrusion, orthodontic treatment planning for, 55-59
- Dental structures, pain referral to, 370-372
 central nervous system sensitization, 371-372
 pain site vs source, 370-371
- Dental treatment, impact of medications in elderly on, **699-726**
 preceding radiation therapy for oral cancer, 909
- Dentifrices, for oral health promotion, in older adults, 737-739
- Dentin, bonding of, in root caries
 prevention, in older patient, 775
 removal of, use of microscope for, 621
- Dentition, of elderly, changes in, 658
 mutilated, 822
 projections concerning, 643
- Dentoalveolar height, cephalometric analysis of, 133
- Dentogenous cyst, of maxillary sinus, perforating, treatment of, 579-580
- Denture(s), and root caries, in older patient, 772
 care of, during radiation therapy for oral cancer, 912
 cleansing of, for plaque removal, 735
 complete, removable, for older patient, 836-838
 difficulties with, interventions for, 689
 partial, removable, for older patient, 837-839
- Depression, chronic, temporomandibular disorders vs, 286
- Depth perception, with surgical operating microscope, misconceptions about, 403
- Diabetes mellitus, in elderly, and periodontal disease, 756
 risk assessment for, 675-676
- Diaphragm, in respiratory mechanics, 212-213
- Diet, changes in, during radiation therapy for oral cancer, 912
 in root caries prevention, in older patient, 772-773
- Diuretics, effects in elderly, 703-704, 708
 dental management considerations with, 717
- Documentation, with surgical operating microscope, 399-401
- Donepezil, for Alzheimer's disease, 918
- Drug absorption, age-related
 pharmacokinetic changes in, 700-701
- Drug distribution, age-related
 pharmacokinetic changes in, 701
- Drug excretion, age-related
 pharmacokinetic changes in, 702
- Drug interactions, monitoring for, with frequently prescribed medications in elderly, 722-723
- Drug metabolism, age-related
 pharmacokinetic changes in, 700-702
- Drug reactions, adverse, in elderly, 702-703
- Dry mouth, **863-875**
 and aging, 865
 causes of, 863-865
 medications, 863-864
 radiation, 864
 systemic disease, 864-865
 evaluation of, 865-869
 medical history, 866
 physical examination, 867
 saliva collection, 867-868
 salivary gland biopsy, 869

Dry mouth (*Continued*)

- salivary gland imaging, 868
- serologic evaluation, 868
- signs, 866
- symptoms, 865-866
- future therapies for, 872
- in older adults, 729-730
- interventions for, 689
- management of, 869-872
 - disease-specific therapies, 872
 - preventive therapies, 870
 - salivary stimulation, 871-872
 - symptomatic treatments, 869-870
- Dysgeusia, drug-induced, in elderly, 714-715
- Dyspnea, relation to orofacial pain, 220-221
- Dyssomnias, definition of, 193
- Ectothermal debonder, for orthodontic brackets, 101
- Edentulousness, and alveolar atrophy,
 - effect on tooth movement, 9
 - in elderly, 638-640, 848-849
 - anatomic and aesthetic complications in, 850-852
 - functional limitations of conventional removable prostheses, 852-853
 - prevalence of, 752
 - psychological aspects of, 853
 - rates of, 818
 - ridge resorption with, 849
- Elderly. See also *Geriatric patient*.
 - dental care for, funding for, distribution of, 637
 - treatment needed, 642-644
 - health care for, funding for, distribution of, 636
 - health service utilization by, 634-635
 - implants in, treatment planning of, 847-861
 - medical history in, 669-671
 - medications in, impact on dental treatment, 699-726
 - nutrition and oral health in, 681-698
 - oral bone loss in, 9-11
 - oral health needs of, 634
 - oral health service utilization by, 635-638
 - oral lesions in, diagnosis and treatment of, 877-890
 - periodontal care in, 751-762
 - physical examination in, 671
 - physiologic changes in, 651-668
 - risk assessment in, 671-677
 - vitamin and mineral requirements and deficiencies in, 682-683
- Enamel etching, for orthodontic bonding, 92-93

- Endo Extractors, for broken instrument retrieval, 464
- Endocrine agents, effects in elderly, 707, 711
- Endodontic leakage, methylene blue identification of, 484
- Endodontic microsurgery. See also *Endodontic surgery*.
 - barrier membrane techniques in, 585-602
 - cell proliferation following, 588
 - conventional surgery vs, 482
 - for through-and-through lesion, infection in, 591
 - guided tissue regeneration, clinical application of, 586
 - hemostasis in, 499-511. See also *Hemostasis*.
 - instrument size in, 484
 - microscopic inspection of resected root surface, 485-487
 - principles of, 481-497
 - apex identification on intact buccal plate, 482-483
 - bevel angle, 487-488
 - hemostasis, 496
 - illumination and magnification, 481-482
 - isthmus identification and preparation, 488-489
 - retropreparation, 489-496
 - size of osteotomy, 483-485
- Endodontic perforation defect, micro-endodontic nonsurgical retreatment in, 446-453
- Endodontic surgery. See also *Endodontic microsurgery*; *Endodontics*.
 - flap design in, 514-521
 - for sinus perforation, results of, 580
 - postsurgical care in, 527-528
 - soft tissue management in, 513-528
 - use of microscope in, 622-623
 - wound closure in, 522-527
- Endodontics, conventional, and operating microscope, 415-428
 - access to root canal system, 418-419
 - extracoronary restorations, 421-422
 - lighting, 416
 - multirooted teeth, 421
 - patient compliance, 416-417
 - role of dental assistant, 417-418
 - root canal system medication, 425
 - root canal system obturation, 425-426
 - root canal system preparation, 423-425
 - rubber dam, 418
 - single-rooted teeth, 420
 - ultrasonic instruments in, 418-420
 - vision, 416
- in geriatric patient, 795-816

- biologic considerations, 796-800
- bleaching, 812
- diagnosis, 800-806
 - differential, 803-805
- endodontic surgery, 811-812
- radiographic findings in, 802-803
- restorative considerations, 813-814
- root canal treatment, 806-811
- treatment, 805-806
- microscope in, documentation and patient education, 623
- retreatment in, coronal disassembly, 430-431
 - for broken instrument, 436-441
 - for missed canal, 431-436
 - for perforation repair, 446-453
 - for silver point removal, 441-446
- micro-endodontic nonsurgical, 429-454
 - nonsurgical vs surgical, 430
 - radicular disassembly, 431-453
 - retrograde filling material for, 555-561
- Endo-perio communications, postsurgical, in barrier membrane techniques for endodontic microsurgery, 600
- Epidri, for surgical endodontic hemostasis, 505
- Epinephrine, in presurgical endodontic hemostasis, 501-503, 505
- Epithelial neoplasia, malignant, in elderly, 879-880
- Ergot alkaloids, for cognitive performance improvement, in Alzheimer's disease, 923
- Erythema multiforme, drug-induced, in elderly, 716
- Erythroplakia, and oral cancer, 900-901
- Esthetic considerations, in orthodontic treatment of adults, 29-48
- Esthetic orthodontic appliances, for adults, 89-109
- Estrogen, conjugated, effects in elderly, 707, 712
 - dental management considerations with, 718
- Expiratory muscles, in respiratory mechanics, 214
- Extracoronar restoration, of root caries, in older patient, 785
 - presence of, and operating microscope, 421-422
- Extraction, in orthodontic treatment, 20, 49-50
- Extrusive mechanics, in deep overbite in adults, common indications for, 71
- Facial analysis, of short face patient, 133-136
- Facial beauty, criteria for, 29
- Facial esthetics, in orthodontics, 30-37
 - criteria for, 31
 - facial form analysis in, 31-37
 - frontal, 32-34
 - profile, 34-37
 - possibilities in, 36
- Facial height, short, with deep overbite, 81, 83-85
- Facial migraine, in orofacial pain, 174-176
- Facial pain. See also *Orofacial pain*.
 - with Lyme disease, 245-246
- Facial proportions, cephalometric analysis of, 132
- Ferric sulfate, for surgical endodontic hemostasis, 506
- Fibromyalgia, and sleep disorders, 202-205
 - management of, 254-255
 - myofascial pain vs, 255
 - temporomandibular disorders vs, 286
- tender points in, 203
- Flap design, in endodontic surgery, 514-521
 - choice of, 519-521
 - full mucoperiosteal, 514-517
 - limited mucoperiosteal, 517-519
 - proper reflection of, 521-523
 - soft tissue attachment level of, 520-521

repair of, use of microscope for, 622
sinus, complications and management of, 563-583
results following, 580-581
treatment of, 570-580
surgically inaccessible, reimplantation for, 604, 606
- Periapical inflammation, and maxillary sinusitis, 575
- Periapical lesions, with furcation involvement, calcium sulfate for, in guided tissue regeneration, 596-597
- Periapical pain, 250
- Periapical tests, in endodontics, in geriatric patient, 802
- Periarticular response, to endodontics, in geriatric patient, 798
- Periodic limb movement disorders, related to orofacial pain, 198
- Periodontal care, in elderly, 751-762
age-related medical risk factors in, 756
medications used for, 758
practical guidelines for, 758-760
- Periodontal disease, in elderly, 640-641, 729
age as risk factor for, 754-756
prevalence of, 752-754
risk management for, with frequently prescribed medications, 722
- Periodontal ligament, maintaining viability of, in reimplantation, 612
methylene blue identification of, 484
- Periodontal pain, 250
clinical characteristics of, 369-370
- Periodontal surgery, esthetic, 43-44
- Periodontitis, periapical, microradiograph of, 569
- Periodontium, changes in, in elderly, 658-659
contours of, abnormal/asymmetric, 43-44
- Personal injury protection insurance, and orofacial pain management, 304
- Phantom bite syndrome, pain in, 156-157
- Phantom tooth pain, 264
- Pharmacologic treatment, for temporomandibular disorders, 351
- Pharmacotherapeutics, in orofacial pain management, 259-278
- Phenothiazines, for orofacial pain, 274
for symptomatic treatment in Alzheimer's disease, 924
- Physical status classification, for geriatric patients, 720-721
- Physical therapy, for bruxism, 237-238
- Physician consultation, on dental management, with frequently prescribed medications in elderly, 716, 719
- Physiologic changes, in elderly, 651-668
- Pilocarpine, during radiation therapy for oral cancer, 911
- Piroxicam, for orofacial pain management, 268
- Plaque removal, in older patient, for root caries prevention, 772
mechanism of, 730-735
- Plasmacytoma, oral, in elderly, 882-883
- Plastic brackets, for esthetic orthodontic appliances, 90-91
- Point of service (POS) managed care, and orofacial pain management, 302-303
- Polyvinyl Siloxane material, for transfer tray, in bracket bonding, 95
- Porcelain restorations, aesthetic, in prosthodontic treatment, for older patient, 833-834
- Post(s), removal of, ultrasonic instrument for, in micro-endodontic retreatment, 435
use of microscope for, 621
- Postapicectomy bone defects, calcium sulfate for, in guided tissue regeneration, 595-596
- Posterior face height, cephalometric analysis of, 133

- Posterior teeth, extrusion of, for deep overbite, 67
- Postherpetic neuralgia, 263-264
- Postsurgical care, in endodontic surgery, 527-528
- Posture, as origin of orofacial pain and headache, 328-332
- correction of, in orofacial pain management, 331
- examination of, 329-330
- imbalance of, relation to respiratory dysfunction, in orofacial pain, 219-221
- Premedication, for reimplantation, 610-611
- Premenstrual syndrome, temporomandibular disorders vs, 289
- Premolar(s), broken instrument in, removal of, 474
- isthmus in, incidence of, 535-536
- maxillary, anatomy of, 566-567
- multiple canals in, 532
- Pretrigeminal neuralgia, peripheral neuropathic pain mechanisms in, 178-179
- Primary care providers, relationship of dentist with, 678
- Procedural errors, microscopic management of, 455-479
- perforations, 455-461
- separated instruments, 461-476
- Profile angle, in facial esthetics, 35
- Prolactin feedback disorder, temporomandibular disorders vs, 288-289
- case reports of, 290-294
- Prostaglandins, as pain enhancers, 170, 261
- Prosthesis, removable, for maxillary obturation, following cancer surgery, 905-906
- Prosthodontics, for older patient, 817-845
- challenges of, 821-826
- dental and oral, 822-824
- medical, 824-826
- clinical management in, 826-841
- aesthetic porcelain restorations, 833-834
- fixed, 828-829
- oral hygiene, 831-833
- removable, 835-841
- resin bonding and repairs, 835
- tissue management, 833
- tooth preparation, 829-831
- treatment planning, 826-828
- missing tooth replacement, 817-821
- Provider-hospital organization (PHO) managed care, and orofacial pain management, 303
- Psychogenic origin, of toothache, 381
- Psychological events, endocrine changes with, 284
- Psychological issues, in temporomandibular disorders, evaluation and management of, 341-354
- Psychoneuroimmunology, and hypothalamic-pituitary-adrenal axis, 282-285
- in differential diagnosis of temporomandibular disorders, 279-296
- Psychotherapy, for temporomandibular disorders, 351
- Pulmonary diseases, in elderly, risk assessment for, 674
- Pulp, exposure of, cervical external resorption of, 796
- response to endodontics, in geriatric patient, 796-798
- testing of, in endodontics, in geriatric patient, 801-802
- Pulp chamber, disc-like, 799
- exposure of, ultrasonic instrument for, 434
- reduced, in geriatric patient, 808
- Pulpal pain, with odontogenic toothache, 368-369
- Pulpalgia, hyperreactive, 249
- Quality of life, with missing teeth, 819
- Racellels, for surgical endodontic hemostasis, 505
- Radiation, and dry mouth, 864
- Radicular disassembly, in endodontic retreatment, 431-453
- drills for, 439
- Radri, for surgical endodontic hemostasis, 505
- Rarefaction, with reimplantation, 615
- RC-Prep, for broken instrument retrieval, 462, 464-465
- Recontouring, for root caries, in older patient, 776-777
- Rectangular flap, full mucoperiosteal, in endodontic surgery, 515-516
- Reimplantation, 603-617
- avoiding curettage of socket, 614
- block anesthesia for, 609-610
- contraindications to, 607-609
- definition of, 603
- extraoral apicectomy in, 614
- indications for, 603-607
- keeping forceps off cementum, 611
- postoperative care with, 615-616
- premedication for, 610-611
- rationale for, 605
- root end filling in, 614

- set up for, 613

- Temporalis muscle, deep pain originating in, referral of, 372
 trigger points of, referred pain from, 374
- Temporomandibular joint, disorders of, and orofacial pain, diagnostic and management ethics in, 332, 335-336
 and sleep disorders, 207
 definition of, 155
 diagnosis of, 326
 differential,
 psychoneuroimmunology in, 279-296. *See also*
 Psychoneuroimmunology.
 effect of prolonged abdominal weakness on, 215
 historical background on, 280-282
 Lyme disease vs, 251-254
 maladaptive behaviors and psychological issues in, 341-354
 medical conditions with symptoms common to, 285-295
 orofacial pain and headache with, 325
 orthotic therapy for, 309-310, 318-319
 pretreatment evaluation of, 342-347
 attitude assessment, 345
 chemical dependency assessment, 346
 compliance assessment, 345
 general health assessment, 346
 general lifestyle habit assessment, 343-344
 hurdles, 347
 oral habit assessment, 343
 pain management assessment, 344
 patient's hypothesis, 347
 stress management assessment, 344-345
 screening questionnaire for, 156
 treatment options and methods for, 347-352
 behavioral, 347-349
 lifestyle counseling, 350
 pain management, 350-351
 pharmacologic, 351
 psychotherapy, 351
 stress management, 349-350
- examination of, for orofacial pain, 158-160
 function of, 251-253
 pain in, bruxism and, 232
 Lyme disease and, management of, 253-254
 management of, sleep questionnaire for, 204
- Thrombin, for surgical endodontic hemostasis, 506-507
- Through-and-through lesions, calcium sulfate for, in guided tissue regeneration, 596-597
 in endodontic microsurgery, infection in, 591
- Tissue management, in prosthodontic treatment, for older patient, 833
- Tobacco, smokeless, and oral cancer risk, 892-893
- Toluidine blue, for early oral cancer detection, 902
- Tongue, cancer of, orofacial pain with, 357
 squamous cell carcinoma of, 898-899
- Tonsil, multiple cancer sites on, 900
- Tooth (teeth), apex of, identification of, on intact buccal plate, 482-483
 perforation of, 492
 inflammation with, 493
 as nociceptive pain receptor, in Lyme disease, 248-249
 decay in, interventions for, 688
 extraction of, following radiation therapy for oral cancer, 912
 loose, interventions for, 688
 loss of, in elderly patient, 848-849. *See also* *Edentulosity.*
 consequences of, 849-853
 missing, average number of, 818
 replacement of, 817-821
 morphology of, 609
 movement of, in adults, bone turnover rate and, 10
 multirooted, and operating microscope, in conventional endodontics, 421
 preparation of, in prosthodontic treatment, for older patient, 829-831

- single-rooted, and operating microscope, in conventional endodontics, 420
- Tooth positioner, in lingual orthodontics, 117
- Tooth wear, bruxism and, 232
- Toothache, nonodontogenic, 367-383
 cardiac origin of, 376-377
 clinical characteristics of, 372-381
 maxillary sinus origin of, 379-381
 myofascial origin of, 373-375
 nasal mucosa origin of, 379-381
 neuropathic origin of, 377-379
 neurovascular origin of, 375-376
 psychogenic origin of, 381
 odontogenic, clinical characteristics of, 367-370
 periodontal pain, 369-370
 pulpal pain, 368-369
- Toothbrushing, for plaque removal, in older adults, 731-734
- Torque/angulation reference guide, for lingual orthodontics, 114
- Torsional fatigue, and broken instruments, 461
- Tramadol, for orofacial pain, 270
- Trapezoidal flap, full mucoperiosteal, in endodontic surgery, 515-516
- Trauma, history of, with orofacial pain, cancer vs, 356-357
- Traumatic neuralgia, orofacial, peripheral neuropathic pain mechanisms in, 176-178
- Treatment planning, in prosthodontics, for older patient, 826-828
- Triamterene, effects in elderly, 703-704, 708
- Triangular flap, full mucoperiosteal, in endodontic surgery, 515-516
- Tricyclic antidepressants, for orofacial pain, 273
 for symptomatic treatment in Alzheimer's disease, 924
- Trigeminal nervous system, painful disorders of, 169-185
 arthralgia, 169-172
 central neoplastic changes, anatomic, 183
 central vs peripheral mechanism, 183
 genetic, 183
 neurochemical, 181-183
 physiologic, 180-181
 central neuroplastic changes, 179-185
 centralized processes of, 184-185
 facial migraine, 174-176
 musculoskeletal disorders, 169-172
 myalgia, 169-172
 myofascial pain, 172-174
 neurogenic inflammation, 174-176
 peripheral mechanisms of, 169-172
 expansion of hyperalgesic area, 171
 prostaglandin synthesis, 170
 substance P, histamine, and serotonin, 171-172
 peripheral neuropathic pain mechanisms, 176-179
 neuritis, 176-178
 neuroma, 176-178
 traumatic neuralgia, 176-178
- Trigeminal neuralgia, and orofacial pain, 256
 and sleep, 205
 peripheral neuropathic pain mechanisms in, 178-179
- Trigeminal nucleus, neoplastic changes of, 180
- Trigger points, in myofascial pain, 173
- Tuberculosis, in elderly, risk assessment for, 677
- Ultrasonic instruments, for post removal, in micro-endodontic retreatment, 435
 for pulp chamber exposure, in micro-endodontic retreatment, 434
 with operating microscope, in conventional endodontics, 418-420
- Ultrasonic preparation, of root end, 541-554. See also *Root end*.
- Upper airway resistance syndrome, related to orofacial pain, 198
- Upper face height, cephalometric analysis of, 132
- Vasoconstrictors, in endodontic microsurgery, injection technique for, 503
 in surgical endodontic hemostasis, 505-506
- Vasodilators, effects in elderly, 703-704, 708
 for cognitive performance improvement, in Alzheimer's disease, 923
- Vasopressors, caution with, with frequently prescribed medications in elderly, 721-722
- Vertical forces, in deep overbite in adults, 77
- Vertical relationships, in adult orthodontics, 32-33
- Vesiculoulcerative lesions, oral, in elderly, 884-887
- Video accessories, for surgical operating microscope, 401
- Video prints, with surgical operating microscope, 400
- Vision, changes in, in elderly, 653

- Vitamin requirements/deficiencies, in elderly, 682-683
- Wilson's syndrome, temporomandibular disorders vs, 288
- Winter tooth, characteristics of, 834
- Workers' compensation, and orofacial pain management, 302
- Wound closure, in endodontic surgery, 522-527
 - reapproximation and compression, 522-524
 - suture removal, 526-527
 - suture stabilization, 524-526
- Xerostomia, following radiation therapy
 - for oral cancer, 907
 - products to treat, 911
 - in elderly, 729-730
 - drug-induced, 713-714
- Xylitol, for oral health promotion, in older patient, 742
 - for root caries prevention, in older patient, 774
- Zinc oxide eugenol cement, reinforced, as retrograde filling material, 558
